ENGINEERING MANAGER

Relationship: Immediate supervisor/mentor from 2019-N/A

"During my time working with Mr. Rhodes, he showed me the ropes on how to make your crew feel appreciated and the importance of not confining yourself to just one position, but to more so expand your capabilities with blue collar work. On his site I started as head labor and demo expert but by the time I left, I learned a few roofing, plumbing, HVAC, electrical, and carpentry along side my cement skills"
